CAUTION:
- Do not allow the metal ends of the jumper cables to touch each other or the RED cables to touch anything metal on the car.
- Do not allow this product to become wet.
- Ensure the battery clamps are connected correctly, and the connectors and terminals are clean and free from rust and dirt.
- Clamp the RED jumper cable to the POSITIVE (+) or the RED/POSITIVE end and then the BLACK/NEGATIVE clamp.
- Do not allow the metal ends to touch together because this may cause harm to the electronics on a vehicle.
- Always wear safety glasses when jump starting a battery (to protect your eyes), and gloves when handling a battery (to protect your hands).
- If the car is not started within 30 seconds, do not attempt to jump start the vehicle more than 3 times from the Power Bank. If the vehicle still does not start then it is likely that there is an alternator problem or loose/dirty battery cables. Please seek professional help.
- Do not store this product in the following conditions:
  - Under extreme heat conditions, battery leakage may occur. Avoid contact with eyes or skin. In case of skin or eye contact, rinse immediately with clean water and seek medical attention.
  - Do not allow the power button to remain pressed for too long as this may drain the battery pack.

NOTE:
- This equipment has been tested and found to comply with the limits for Class B digital devices, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
  - Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and the receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.

WARRANTY:
